

3D Drawings Now Available for Doering Products

Doering Company makes it easy for engineers to integrate its products into designs by introducing 3D CAD drawings. We are now offering drawings for more than 2,000 of our hydraulic valves, pumps, manifolds and full assemblies. Files are available in convenient .stp format and will help your design process by directly importing 3D files into your engineering designs, saving you precious time and resources.

To request your 3D files call 320-743-2276 or send an email to applications@doering.com please list the P/N you would like with your contact information.

Doering's reputation is based on the quality of our products and services. We are committed to exceed our customers' expectations every day.
